SUMMARY

Passionate and detail-oriented Software Developer with experience in web and mobile application development. Proficient in front-end and back-end technologies, with a strong foundation in software engineering principles. Skilled in problem-solving, debugging, and collaborative teamwork. Seeking opportunities to leverage technical skills in software development roles.

TECHNICAL SKILLS

- **Programming Languages:** Java, JavaScript, Python, C#, HTML, CSS
 - **Frameworks & Libraries:** React.js, Spring Boot
 - **Databases:** PostgreSQL, MongoDB
 - **Tools & Platforms:** Git, Docker, Jenkins, Firebase
 - **Software Development:** REST APIs, Microservices, Agile, Test-Driven Development (TDD)
-

EDUCATION

George Brown College, Toronto, ON

Computer Programming and Analysis | 2022 – Present

Relevant Courses: Web Development, Software Engineering, Data Structures, Cloud Computing

PROJECTS

TechBarter – Online Marketplace for Tech Enthusiasts (*Capstone Project*)

- Developed a React.js frontend and Spring Boot backend for a tech trading platform.
- Implemented secure authentication, messaging system, and AI-based recommendations.
- Utilized PostgreSQL for structured data and MongoDB for user reviews.

Room Booking & Event Management System

- Designed and developed microservices-based architecture using Spring Boot and React.
- Implemented a booking system with approval workflows and notifications.
- Integrated PostgreSQL and MongoDB for database management.

Personal Portfolio Website

- Built a fully responsive portfolio site using HTML, CSS, and JavaScript.

- Hosted the project on GitHub Pages for easy accessibility.
-
