Subject: Application for Software Developer Position

Dear Hiring Manager,

I am excited to apply for a Software Developer position where I can contribute my technical expertise and passion for problem-solving. With a background in Computer Programming and Analysis from George Brown College, I have developed a strong foundation in full-stack development, working with technologies such as Java, JavaScript, React.js, and Spring Boot.

Through academic projects and hands-on experience, I have built and deployed applications involving REST API development, microservices architecture, and database integration with PostgreSQL and MongoDB. Additionally, my ability to work collaboratively and adapt to challenges has been strengthened through my professional experience in customer-facing roles.

I am eager to bring my skills in software development, Agile methodologies, and cloud-based solutions to a dynamic team where I can continue to grow and make meaningful contributions. I welcome the opportunity to discuss how my experience aligns with your needs. Thank you for your time and consideration. I look forward to the possibility of connecting.

Sincerely,
Hardik Kumar
